# Your Partner for advancing Project Management

## **Mission and objectives**

Our mission is to make you and your company (even) more professional in managing your projects.

The objectives are to improve the quality, economy and time-effectiveness of your projects, and to increase the personal rewards felt by your project participants.

These objectives are attained by advancing your project management methods, skills and culture.

## **Situational development**

As your management partner we can assist you in planning a development process tailored to your need for advancing project management. Further, we have specialised in a broad spectrum of consulting services from which you can benefit:

- Planning the process of advancing project management
- Analysing the need for improved management of projects
- Developing project management methods
- Training of project managers, participants and sponsors
- Supporting the management of current projects
- Organising learning processes and knowledge exchange
- Improving managing the project oriented company

Depending on your need each services can be delivered individually or be combined in an integrated process to professionalise the management of your projects.

## **Initial meeting**

If you are considering making use of our services in your corporation, just call or write. We will be pleased to attend a non-binding meeting to evaluate your needs and our possibilities of supporting you.
